

nick jr.
make it
and
Bake it

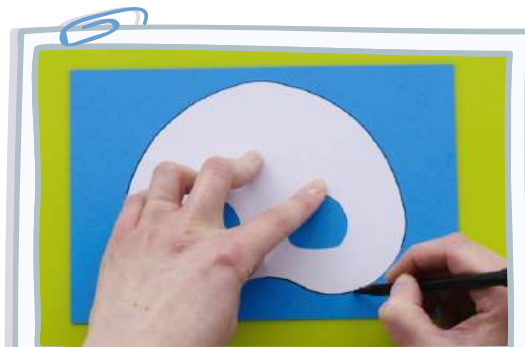

Swift Mask

Materials needed

- * Light blue card
- * Dark blue felt
- * Grey felt
- * Stretchy string
- * Black, white, blue pen
- * Glue
- * Scissors
- * Sticky tape

Step 1

Draw around the face/mask template onto some blue card and around the feather templates onto blue felt.

Step 2

Cut along the lines you have drawn carefully. Ask a grown up to help you with the scissors.

nick jr. make it and Bake it

Swift Mask

Step 3
Place the card onto a table and stick on the felt, first the face outline and then the feather on top!

Step 4
Next take a white pen to draw around the eyes, and repeat a little high up with a blue pen.

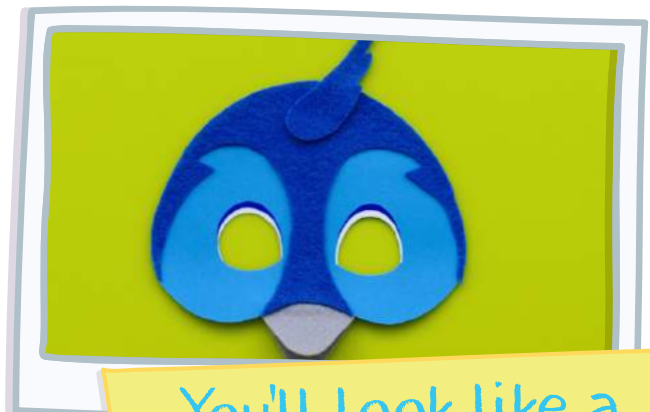

Step 5
Draw around the beak template onto some grey felt, cut it out carefully and stick two blobs of glue into each corner, pinch it together and wait for it to dry.

Step 6
Stick the beak onto the underside of your mask using some gloopy glue.

Step 7
Time to earn your wings! Turn over your mask and attach some stretchy elastic string.

You'll look like a real Top Wing cadet!
